

Snakes & Ladders Instruction Sheet

- 1) Download & print out the instruction sheet and game board.
- 2) **You will need:** a six sided die, counters and the game board to play.
- 3) **To play the game:**
 - Each person rolls the die, the person that rolls the highest number goes first, then clockwise from that player.
 - Place the counters on the start square.
 - Take it in turns to roll the die, and move along the board following the numbers from 'START' to 'FINISH'.
 - If you land on a square with the bottom of a 'Ladder' - MOVE UP - to the square above.
 - If you land on a square with the tail of a 'Snake' - MOVE DOWN - to the square where the snakes head is.
 - The first person to reach the 'FINISH' wins!

If you don't have a six sided die or counters you can cut out the ones below.

To make the 'die' cut out the template, fold and then glue the grey tabs to make a cube.
